PRODUCT NAME

DESCRIPTION

D&B GSL

The d&b GSL System delivers exceptional large-scale sound reinforcement with pristine clarity and advanced cardioid technology for the most demanding environments.

D&B KSL

The d&b audiotechnik KSL System is a high-performance, full-range line array designed to provide precise broadband directivity control and impressive output for large-scale sound.

Adamson E15

The Adamson E15 is a 3 way, true line source enclosure, incorporating proprietary transducer and waveguide technology which reduces weight and minimizes the footprint.

Adamson E12

The Adamson E12 is a 3 way line array enclosure, incorporating proprietary transducer and waveguide technology which reduces weight and minimizes its footprint.

Adamson CS10

The CS10 is a two-way, full-range intelligent loudspeaker, intended for use in a wide variety of applications.

Adamson CS7

The CS7 is a 2-way, full range line array cabinet containing 2x ND7-LM16 Kevlar Neodymium drivers (2x 16 Ω) and an NH3-8 1.4" exit compression driver (8 Ω).

Adamson CS7p

The CS7p is a two-way, full-range intelligent loudspeaker, intended for use in a wide variety of applications.

Meyer ULTRA-X20

Designed for simplicity and performance, the ULTRA-X20 features IntelligentAC automatic voltage handling, onboard DSP and optional remote monitoring.

QSC KW 122

The KW Series has been primarily designed for portable audio reinforcement including a variety of uses in reinforcement for entertainers and presenters.

QSC K 12.2

The K 12.2 offers the perfect combination of elegant design, superior audio performance, high functionality, simple and intuitive operation, and genuine QSC reliability.

SUB-WOOFERS

PRODUCT NAME

DESCRIPTION

D&B SL-SUB

The d&b SL-SUB delivers powerful low-frequency performance with advanced cardioid technology, ensuring exceptional clarity, reduced rearward energy, and precise low-end control.

Adamson E219

The E219 Subwoofer was developed to bolster the low-end of the E-Series line of products.

Adamson E119

The E119 Subwoofer was developed to bolster the low-end of the E-Series line of products.

Adamson CS119

The CS119 is the larger subwoofer in the CS-Series, intended as a companion subwoofer to the CS10 & CS10p.

Meyer Sound 750-LFC

The Meyer Sound 750-LFC is a compact, 3,100-watt low-frequency control element featuring a 15-inch dual-coil driver that provides high-output performance.

QSC K118

This 3,600-watt active subwoofer yields extreme output with impressive low-frequency performance.

CONSOLES

DiGiCo Quantum 852

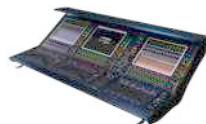

The DiGiCo Quantum852 is a flagship, dual-engine digital mixing console engineered for large-format audio production, combining immense FPGA processing power across 384 input channels.

DiGiCo Quantum 5

The DiGiCo Quantum 5 combines the proven SD5 control surface with next-generation Quantum processing, delivering exceptional power, flexibility, & connectivity.

DiGiCo Quantum 338

The DiGiCo Quantum 338 offers unparalleled performance in a compact format. New design features and reliable processing speed gives users a great mixing experience.

DiGiCo Quantum 225

The Digico Quantum 225 console merges tried and tested workflows with immense processing muscle and all of the Quantum features, giving you the ultimate tool set.

DiGiCo SD10-24

The SD10-24 includes many benefits, including Stealth Digital Processing and floating-point Super FPGA technology, and a fully-loaded feature set.

PRODUCT NAME

DESCRIPTION

DiGiCo SD12

Compact in size but big on features, the SD12 raises the bar as a multi-application digital console at an exceptionally affordable price point.

DiGiCo S21

The S21's diverse work-surface includes dual P-CAP multi-touch screens, 48 flexichannels, the equivalent of 46 buses and benchmark 96kHz performance.

AVID Venue S6L-24D

Avid VENUE S6L-24D delivers the unmatched processing power and sound clarity artists and engineers rely on to present the best show possible.

SSL L100

The SSL100's processing power allocation and I/O architecture is extremely flexible in a compact board layout.

Yamaha Rivage PM3

The Yamaha PM Series continues to bring true innovation to live sound. The PM3 features top end functionality and mixing channels in a compact, intuitive form factor.

Yamaha DM3

The Yamaha DM3 is a compact, ultra-portable digital mixing console that offers 22 channels of high-resolution 96 kHz audio.

Yamaha DM7C

The Yamaha DM7 Compact is a professional, Dante-native digital mixing console that delivers 72 channels of high-resolution 96 kHz audio processing.

Allen & Heath S5000

The Allen & Heath dLive S5000 is a professional control surface featuring 28 faders, dual 12-inch capacitive touchscreens, and the intuitive Harmony UI.

Allen & Heath D-Live CTi1500

The CTi1500 has been engineered across the board to take out as much weight as possible, while ensuring tour-grade structural integrity and a first-class user experience.

Allen & Heath SQ6

The Allen & Heath SQ6 is a class leading console that gives you unrivaled power and audio fidelity with an ultra low <0.7ms latency.

DESCRIPTION

AVID Venue E6LX-256 Engine

The Avid VENUE E6LX-256 engine delivers industry-leading power and 256 processing channels, providing the massive scale and stability required for the most demanding live productions.

DiGiCo D Rack

As recognizable as the consoles it supports, the DiGiCo D-Rack comes as standard with the SD9 and is available as an option on all SD-Series consoles.

DiGiCo D2 Rack

The D2-Rack spearheads DiGiCo's digital connectivity with an expandable channel count to meet the needs of the most ambitious projects.

DiGiCo SD Rack

With support for up to 192kHz high resolution analogue I/O converters, it's no wonder that the SD-Rack is accepted as the finest I/O rack available.

Digital Quantum MADI Rack

The MADI pairs with the Quantum 225 and offers 48 channels of DiGiCo quality recording and playback.

Yamaha RIO3224-D3

The Yamaha Rio3224-D3 delivers pristine, high-definition audio and seamless Dante integration, providing the ultimate robust I/O solution for professional live sound and broadcast environments.

Yamaha PM10 DSP-R10

The PM 10 DSP-R10 is a new generation mixing system truly worth of the storied "PM" name.

Allen & Heath D-Live-DM48 Mix Rack

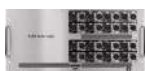

The Allen & Heath dLive DM48 MixRack is tailor-made for mixing in large live venues, thanks to staggering levels of I/O and an extensive array of processing tools.

Allen & Heath D-Live-DM0 Mix Rack

The DM0 dLive S Class MixRack from Allen & Heath is specifically designed for distributed audio applications as well as digital splits.

SSL ML32 MADI Stage Box

The SSL ML 32 offers an analogue stagebox fitted with 32 remote controlled SSL SuperAnalogue™ mic/line inputs and 32 line outputs on the front panel.

Neve 8 Channel Preamp

Coveted by top engineers and producers since its introduction in 1970, the Neve 1073 channel amplifier represents the pinnacle of characterful microphone preamplification.

PRODUCT NAME

DESCRIPTION

GML 8200 Two Channel
5 Band EQ

The GML 8200 is a legendary five-band parametric equalizer, favored by engineers for its clean, transparent signal path and precise control over every frequency detail.

SSL Bus+ Next-Generation
Stereo Bus Compressor

The SSL THE BUS+ is a versatile take on the classic G-Series "Glue" compressor, featuring an all-analog signal path with modern routing options and precise digital control for any mix.

Prodigy.MP

The Prodigy.MP provides flexible I/O, dual network audio, DSP functions, sample rate conversion and powerful hard- and software.

Prodigy MP Advanced

Prodigy MP Advanced is a state-of-the-art audio converter and signal processor designed for use in professional live sound, broadcast, and installation applications.

Neve Portico II, Master
Buss Processor

The Portico II Master Buss Processor is a creative tool that redefines the boundaries and limitations of traditional 2-channel compression and limiting.

Lake LM 44

The LM 44 provides a four input/four output analog configuration that is suited for a variety of system signal processing and routing applications.

Empirical Labs EL8
Distressor Compressor

The Empirical Labs EL8 Distressor is revered in studios all over the world as the modern, "must-have" compressor that is versatile, fast, and offers tons of color.

Neve 545

The 545 the most intuitive, natural-sounding and effective method of feedback reduction available on the market.

Avalon VT-747sp Comp
EQ

The Avalon VT-747SP combines a creative STEREO tube-discrete Class A spectral-opto-compressor with a musical six band equalizer.

Bricasti M7 Stereo Reverb

The Bricasti Design Model 7 provides the highest level of musicality and ease of control imaginable in a processor dedicated to the task of reverberation.

DBX 162SL Purple Series
Stereo Comp

With sonic clarity designed for the studio, the 162SL maintains its superior performance in harsh environments and pure enough for the studio.
